Thanks Joy. I was thinking that if you can travel, it would be really cool for you to come up here and meet with me, the DEQ Tar Creek coordinator, Monty Elder, and my supervisor to talk about community involvement at Superfund sites in Oklahoma. We have never really gotten that opportunity to talk to you about our ideas on community involvement and our sites. Please think about it and let me know if you would be interested!

Thanks,  
Amy

Amy,

Thank you for this summary. This is also what I had in my notes. I think our conversation was very productive and the summary below delineates a good path forward. Thank you for your call, I appreciate it.

Also, I searched my planner to see if I had jotted down a conversation in January. We did speak on Jan 23rd; I had just come back from a month long vacation. I apologize for not remembering when we spoke earlier today.

Joy,

Here is a summary of we talked about on the phone this afternoon:

1. Eva will submit a schedule every Monday for the next week on what community interviews will be performed that week.
2. Bill will participate in Eva's scheduled community interviews as he feels necessary.
3. Eva will provide all contact information of interviewees and a summary of the interviews to Bill every week. EPA will keep contact information confidential.

4. Bill will provide his draft CIP to Todd and me for our review.
5. DEQ and EPA will continue to coordinate closely on all community involvement activities. Bill will coordinate directly with Todd Downham the state Project Manager.
6. Attached is our Management Assistance Work Plan for our grant for your review. Please see section 3 community involvement. I feel that this work is covered by our grant. Feel free to talk to Carlene if you feel this is a problem.

Thanks for talking to me! I think this will be a mutually successful project.

Amy
